

AFTER TALKING WITH SEVERAL INJURY LAWYERS WHO WERE VERY AGGRESSIVE AND BULLISH, GABBY AND HER TEAM WERE FANTASTIC. THEY WERE VERY INFORMATIVE, EXPLAINED EVERYTHING SO THAT YOU UNDERSTOOD, INSTRUCTED ME TO MAKE THE RIGHT DECISION. THEY KEPT ME WELL INFORMED ON WHAT WAS HAPPENING STEP BY STEP. THIS TEAM WAS VERY PROFESSIONAL AND LOOKED OUT FOR MY BEST INTEREST. I WOULD HIGHLY RECOMMEND THIS TEAM AS A PERSONAL INJURY LAWYER.

MEDICAL MALPRACTICE

Why are so Many “Never Events” Happening?

You may not have heard of a “never event” before and chances are, you do not want to. The National Institute of Health or NIH defines “never events” as a subset of patient safety incidents that are both preventable and so serious that they should never occur. Events like these include performing an operation on the wrong patient or even on the wrong side of a patient’s body.

WORKPLACE INJURIES

What Should I Do if I Slip and Fall at Work?

Slip and fall accidents are among the most common workplace accidents. The Bureau of Labor Statistics (BLS) reports that 22 percent of workplace slip and fall accidents cause workers to miss more than a month and are the leading cause of workplace injuries in certain industries. The Pennsylvania Bureau of Workers’ Compensation receives over 160,000 work-related injury claims yearly, many caused by slip and fall accidents.

SPORTS INJURIES

Youth Sports: Preventing Burnout and Injury

Recently, the American Academy of Pediatrics (AAP) took a close look at the pros and cons associated with participation in youth sports. While there are many physical and mental benefits for kids and teens who participate, data shows that nearly three-quarters withdraw from their activities by 13-years-old. To bolster participation turnout and promote safety, the AAP released a detailed report on ways to recognize and prevent overuse injuries, burnout, and overtraining in young athletes.

CAR ACCIDENTS

Why Is Grant Avenue Dangerous for Drivers?

Philadelphia has many dangerous roads. A recent study revealed that more than a quarter of the road segments considered among the deadliest in Pennsylvania are located in Philadelphia, this includes Grant Avenue. Grant Avenue is dangerous due to the roadway’s characteristics and poor design.

April: Distracted Driving Awareness Month

Distracted driving poses a significant threat to public health; each year, approximately 3,000 people lose their lives in car accidents involving distracted drivers. To combat Administration (NHTSA) sponsor Distracted Driving Awareness Month every April. One of the campaign’s primary missions is to share the message, “When you’re behind the wheel, your only job is to drive.”
